Hands-On

10 Hour Safety Training for General Industry on OSHA Standards

Course Description

As a general industry worker, you must be aware of the latest safety standards that are set by the Occupational Safety and Health Administration (OSHA). Designed to allow you to accomplish our 10-Hour General Industry on OSHA Standards.

Our course can be delivered On-Site In-Person or a LIVE Virtual Instructor-Led course. Our course is not just a video or computer-based online course, our Instructors will teach you real-World practical skills that they have personally experienced on the job over the years that meet the latest standards and regulations today. This course covers what you need to know to stay safe on the job.

Upon completion, all course participants will receive a certificate of completion at the end of the course along with a laminated wallet card, that will recognize that they have successfully passed this course that is based on the Department of Labor (DOL)/OSHA Standards, allowing them to seek and or maintain employment.
