**Notes**

NOTE This session was created as 1-day overview for CP User Admin, System Screens and basic information for Application Builder (no hands-on except for building the basic mailbox). This course can be customized based upon the

specific objectives.

Other CP courses available

- o 2-day Hands-on CallPilot Application Builder (with Hands-On practical exercises)
- o 2-day Hands-on CallPilot User and System Administration (with Hands-On practical exercises including end-user mailbox navigation)

## **Delivery Method**

Instructor led with numerous Hands-On labs and exercises.

## **Equipment Requirements**

**(This apply's to our hands-on courses only)**

BTS always provides equipment to have a very successful Hands-On course. BTS also encourages all attendees to bring their own equipment to the course. This will provide attendees the opportunity to incorporate their own gear into the labs and gain valuable training using their specific equipment.

## **Course Length**

1 Day
