

Hands-On

Bucket Truck Safety and Operations

Based on OSHA & ASME Standards

Course Description

Our Hands-On Aerial Lift and Bucket Truck Operator Training course is based on the latest OSHA and ASME standards and requirements.

Bucket trucks provide aerial access to hard to reach locations for Utility Companies in all types of environments. The use of Bucket trucks puts operators, personnel and civilians at risk every day. For their protection and your company's protection solid Hands-On reinforced training is a must. Operators need to be confident in the understanding and use of Ariel Lifts and Bucket Truck Operations, and that we Guarantee!

This course will provide real-life examples and years of Operator experience, BTS provides Certification and Hands-On practical field operations and testing that is recognized by OSHA and ASME Standards and meets all Requirements.
