

Hands-On

CPR/First-Aid/Defensive Driving Practical-Tech

Course Description

This extensive course will train on the Practical Real-World scenarios of the following modules

- CPR
- First Aid
- Defensive Driving

Please keep in mind that this is a Multi-Module course, covering all three modules above in an accelerated delivery format over 1-day, and student(s) will complete all modules and receive the "BTS Certification of Completion" for each module. To qualify for the Red Cross Certification, you would need to attend the 2-day version of the First Aid module available upon request.

This course is delivered in an extensive practical Hands-On format, to give attendees the training that is required for their job requirements and each student(s) will complete all lab exercises to earn their certificate of Completion for attending this training.

Delivery Method

Hands-On Instructor-Led.

Equipment Requirements

(This apply's to our hands-on courses only)

BTS always provides equipment to have a very successful Hands-On course. BTS also encourages all attendees to bring their own equipment to the course. This will provide attendees the opportunity to incorporate their own gear into the labs and gain valuable training using their specific equipment.

Course Length

1 Day
