

Hands-On DMS-100 TRAVER

Course Description

This Hands-On course provides the skills required to build understand the TRAVER tool with the help of documentation on the DMS-100 system.

Our non-intrusive exercises teach the students to format the different types of TRAVERs and understand the output.

Students Will Learn

- **Overview of DMS-100 system family**
- **Description of a call process**
- **Configuration of tables (Table Editor)**
- **Set-up of lines (SERVORD)**
- **The different formats of a TRAVER**
- **How to read and understand the output from a TRAVER**
- **Usage of the documentation (Helmsman)**

Target Audience

Technical staff responsible for operation and maintenance of the DMS-100 Switch.

Prerequisites

A basic understanding of the DMS-100 translations.

Delivery Method

Instructor-Led with Numerous non-intrusive Labs and Exercises.

Equipment Requirements

(This apply's to our hands-on courses only)

Access or remote access to a DMS100 Switch is required for this training.

BTS always provides equipment to have a very successful Hands-On course. BTS also encourages all attendees to bring their own equipment to the course. This will provide attendees the opportunity to incorporate their own gear into the labs and gain valuable training using their specific equipment.

Course Length

3 Days
