

Hands-On

GTD-5 Equal Access (Database)

Course Description

Inter- and Intra-LATA translations are emphasized, with several different variations and methods to set-up for each. The difference between direct telco trunking and in-band or SS7-based equal access is discussed.

Also, translations for domestic, access-tandem or international calls, using different feature groups, or sending one class of call to one IXC and all others to another IXC, and set-up of billing and AMA records is shown.

Finally, various reports and statistics about equal-access information is demonstrated.

Notes

This course requires access to customer GTD-5 Switch or Switches for Non-Intrusive training.

Delivery Method

Instructor-Led with numerous labs and exercises.

Equipment Requirements

(This apply's to our hands-on courses only)

This course requires access to customer GTD-5 Switch or Switches for Non-Intrusive training.

BTS always provides equipment to have a very successful Hands-On course. BTS also encourages all attendees to bring their own equipment to the course. This will provide attendees the opportunity to incorporate their own gear into the labs and gain valuable training using their specific equipment.

Course Length

4 Days
